Construction of a Town Hall at Cheekkallapa—

From The Deputy Commissioner Kolar District

No. 1 FOC 411/19-20 Dated 29 4-19 Received 5-12-19

Diary No. 4350	Enclos.	Spare Copies.	Serial No. 1

BRIEF ABSTRACT OF LETTER.

Submits a detailed report regarding the construction of a Town Hall at Cheekballapur.

NOTES AND ORDERS.

From an examination of the report, it is seen that Rs. 5259-5-9 has already been spent on the construction of the hall out of the total public subscription of Rs 5-272-6-4 leaving a balance of Rs 12 14-7, with the Committee. For all this

NOTES—First Sheet.

W D 1233—GPB—60 000—1 12-16—S

Serial No

expenditure, the building is incomplete and stands condemned by the Engineering authorities. The committee, feeling their incapacity to carry out the work, entrusted to them by the Chickballapur public, handed over the incomplete building to the NC Council, who accepted the work after duly passing a resolution in their Council. But the point for orders is whether the committee, who were entrusted with public money to build the Town-Hall, can transfer the work to the Municipality without consulting the subscribers by calling a public meeting of the citizens.

2) The present proposal of the NC Council is to abandon the present site altogether and to build a bigger hall at the N-W-Extension of the town, such that the NC offices may be accommodated there. The cost of the building is estimated at Rs 8000/- and is provided in the current year's budget, out of which Rs 6000/- is expected to be realised by the sale of the materials of the present incomplete structure. This will necessitate the Municipality to spend Rs 2000/- from their closing balance in addition to the subscription of Rs 2000/- which they contributed in the beginning

NOTE—Contn sheet

WD 22 —GPE—60,000—1 12-16—S

General and Revenue Secretariat | ML File No 161 of 1919

Serial No

Then we all, the Municipality pays half of the cost out of their fund for the Town Hall. It is a point for consideration, whether a smaller building can not satisfy the needs of Chickballapur Town, whose population is 7661, at a cost which will be within the realisations of the present incomplete structure, and the funds collected for the pressing necessities like water supply, drainage etc.,

3) The plans and estimates have not yet been prepared and the Hon'ble President promises to send them to Govt when they are prepared.

~~Submitted for orders~~ 4) The financial condition of the ML Council is as follows:—

Opening balance Rs 39,507

Receipts: Special " 6500

Normal " 13,555

Total " 59,562

Expenditure - Special " 33625

Normal " 12595

Closing Balance Rs 13,342

5) Submitted for orders

6) Is there no plan regarding the old structure? Surely Govt sanction should have been taken for pulling and moving the structure. Take it put up

File relating to the sanction of Rs 2000/— from the fund of the Cantonment Municipality in 1902 is put up

2) Submitted with respect to para 6 supra

18/12

18/12

3) The report letter of the Vice President of the Cantonment Municipality clearly explains the case a lot of money has been spent and no good has resulted People's money has been practically wasted There is now a badly damaged Structure, which might come down at any moment The proposal of the Municipality to abandon the site is therefore a wise one As regards constructing a new building for the Town Hall and Municipal Offices the subject requires careful consideration It is really doubtful whether such a building can be put up within Rs 8000/- and whether really the Municipality will be able to realise a sum of Rs 6000/- from the sale of the old materials, though no doubt under the present market rate, the materials purchased so long ago as 1902 will have doubled in their value The ambition of the Municipality not to let the idea drop as it originated at an auspicious moment is very laudable and it is this one

NOTE—Contn sheet

Municipal Council

Chickballapur

To

The President

Municipal Council

Chickballapur

Sir,

I have the honour to state that the construction of the Town-Hall at Chickballapur was undertaken to commemorate the memory of the installation of His Highness the Maharaja of Mysore in the year 1902. To that end a Committee was formed to suggest ways and means. It suggested that subscriptions should be collected and the Chickballapur Municipal Council approached for a special donation

Accordingly action was immediately taken and the following six Exemptions were collected —

Municipal Council
Cheerballapur 2000-0-0
Interest on Savings
Bank deposit 39-12-4
Citizens of Cheerballapur
and others 1773-8-0
G Aravamuda Iyengar Esq
Sub-Division officer 50-0-0
Citizens of Gokulnur 420-0-0
Citizens of Bagepalle 725-0-0
Citizens of Sidlaghatta 164-0-0
Citizens of Gudibanda 100-0-0
Total 5272-4-4

2 The foundation-Stone of the Town-Hall Cheerballapur was laid by H.H. F & C in the year 1902, and the work was progressing rapidly, the foundation and basement were completed with due care and

And dengues and the Superstructural walls had been up to a height of 18 feet and iron trusses were procured from Bombay and the necessary timber was finally wrought up, when Mr. Harris the then Superintending Engineer happened to inspect the building. On inspection he was of opinion that the walls were not sufficiently strong to bear the weight of the iron trusses intended to be employed for the roof, and to improve matters he suggested that relieving arches should be put over the windows and three interior arches to strengthen the walls His suggestions were accordingly adopted with promptitude and the walls that had been raised to 18 feet were reduced to 12 feet by dismantling to formidable Carrying out of the enforcement proposed During the progress of the work Mr. Harris Inspector the then Executive Engineer

inspected the Town Hall after the suggestions of Mr. Kane had been fully adopted, and he was of opinion that the arches were not necessary. He suggested that pillars to bear the weight of the trusses should be introduced. When the suggestions also were being carried out, the Town Hall was inspected by Mr. Gitaramarao, Superintending Engineer and Mr. Prekandeswara Iyer, the then deputy Commissioner and they suggested that instead of having one large Hall, a Hall of smaller dimensions and a few rooms would be useful. The Committee was asked to alter the plans of the Town Hall

3 The work at this stage Costed Rs 5259-5-9 as per details below -

Foundation, worked out at	229-5-9

Amount paid to Contractor
Mr. Coof Khan 4981-0-0
Compensation for land . 15-0-0
Printing Charges . . 9-0-0
Travelling expenses . . 25-0-0
Total 5259-5-9

leaving a cash balance of Rs 12-14-7.

4 The various suggestions offered by the Engineers one after another each coming as he did after the lapse of long periods coupled with the evacuation of the Town on account of plague, hampered the progress of the work considerably so much so that the Committee were constrained to state respectfully that they were unable to carry out any further work

5 The Engineers sent up several alternative Plans for

adoption and they were under the consideration of the Committee as the Committee found that the present Town Hall could not be finished unless one of the alternative plans was adopted which would in its adoption entail heavy expenditure which the Committee were unable to meet, they resolved to hand over the building with the materials to the Municipal Council, Cheltenham in the hope that as the Municipality had on its inception generously aided the undertaking, so it would on its completion.

6 The offer of the Town Hall Committee was accepted by the Municipal Council on 4 12 1915, (the copy of the Resolution is enclosed for favour of perusal) and the Council also requested the D P W officer Cheltenham to recommend one of the alternative plans with an estimate and the

accordingly, sent up a Plan, as
an Estimate for Rs 6810/- to the
Municipal Council desired
to meet out of the fund at Rec-
ord

7 Thus as the construction
of the Old Town Hall is being
hindered in some way or other
from the Commencement and to
Foundation is not strong, the Council
has now resolved to abandon the Site,
and to construct a new Town Hall
with the same Object in View on
a Separate Site on the N W
Extension at a Cost of Rs 8000/-.
It is also proposed to locate the
Municipal office in the same
building, as the one now is
as nearly unsuitable.

8 The materials and
we utilised for the new building
as old and the iron trusses and
the Site will also be sold and
the sale proceeds credited to the

Municipality the probable realisations from these as estimated to come up to Rs 5000/- In addition to these a sum of Rs 3000/- has been allotted by the Municipality, and Rs 8000/- has been shown in the Budget for the construction of a new building as per new design.

I have therefore to request you to be so good as to get sanction of Government to the proposal of the Council. The Plan and estimate will be separately submitted after they are prepared

I have the honor to be
Sir,
Your most obedient Servant

Lieutenant Colonel
Hon Secy
